

15618

15618 MEDIUM-GRAINED OLIVINE-NORMATIVE ST. 9A 0.60 g
MARE BASALT (?)

INTRODUCTION: 15618 is a very vesicular mare basalt fragment (Fig. 1), macroscopically very similar to 15612, 15615, etc. Small yellow-green olivines are visible. The sample has never been allocated or subdivided.
