

**76566****Dark Matrix Regolith Breccia**  
**2.639 g, 2 x 1.5 x 1 cm****INTRODUCTION**

These two fragments of brown glass matrix regolith breccia are very similar to 76545 from the same rake sample.

**PETROGRAPHY**

Sample 76566 is typical brown glass regolith breccia (Fig. 1). It is lithified local soil. No studies have been done and no thin sections exist.

Figure 1: Photograph of 76566. Scale bar is marked in mm. S73-19639.
